Although the present authorized
enlisted strength of the army is 90,468,
the actual strength is far below that
owing to the difficulty the recruiting
officers have experienced in obtaining
recruits during the past few
months. The situation, say army men,
will be serious later in view of the
fact that more men will soon be needed
for the garrisons of Hawaii and the
Panama Canal Zone.

A report is current in British yachting
circles in London that Sir Thomas
Lipton is considering a proposition for
a race between San Francisco
and Honolulu in 1915. Another re-
port has it that Sir Thomas is going
to present a silver trophy for a series
of races between these two points,
the trophy to become the property of
the club or yacht owner who shall
win the race three times, not neces-
sarily in succession, the races to be
conducted at intervals of not less than
a year.

The Italian chamber of deputies
has approved unanimously an ap-
propriation of ten million dollars to
reconstrue the war in Tripoli, where
the Italians recently suffered severe
reverses at the hands of the Arabs.

Armed men are guarding the locks
of the Panama Canal, night and day.
Special lighting arrangements have
been perfected in the region all about
the great duplicate flights of locks
at Gatun, Miraflores and Pedro Miguel,
so that all through the night there
is practically the brightness of day.

The greatest precaution is ex-
ercised in the selection of the employees
engaged on the work of completing
the locks.

The reason for these extraordinary
precautions is this: The canal authori-
ties and war department officials be-
lieve, and always have believed, that
if war is to be declared on the United
States by any power fearing our in-
fluence in the Pacific, the blow will
be struck before the Panama Canal is
ready for effective use.

The great German battle cruiser
hitherto known as "K" was to have
been launched yesterday afternoon,
but refused to move from the stocks
after she had been christened the
Derfflinger by General August von
Mackensen.

The general made a patriotic speech
and broke a bottle of champagne on
her bow at the moment she should
have slid down the ways. She stuck
fast, and attempts to start her were
finally abandoned owing to the falling
tide.

The vessel is named after a famous
general, Geo. von Derfflinger, who
fought during the Thirty Year war.

Canada's navy of the Atlantic is to
be disbanded. Orders have been re-
ceived at Halifax from Ottawa to dis-
mantle the cruiser Niobe. All of the
Canadian recruits have been given
their discharge and the British naval
officers, pensioners and enlisted men
will return to England next month.

It is reported in Paris that Cipriano
Castro is negotiating for the purchase
of a sugar estate in Hawaii through
a Paris brokerage firm. Castro may
settle permanently in Honolulu.

The naval authorities fear that it
will cost much more and take a longer
time than expected for the completion
of the immense dry dock under con-
struction at the naval station, Pearl
Harbor, Hawaii. Rear Admiral H. R.
Sanford, chief of the bureau of yards
and docks, has rendered a report to
the naval department, following a re-
cent visit to the islands. The pre-
liminary borings at the famous sites
that were under consideration for the
dock at Pearl Harbor gave the im-
pression that the conditions of the
site were favorable but it has since
developed that there is a peculiar
combination of volcanic and coral
formation there. It may develop from
the findings of the coral that the
present work will be abandoned and
a floating dock provided for the sta-
tion.

Enrique Arribas y Turull, the Span-
ish historian, has published a
brochure in which he states, as the
conclusion of his latest researches
among original documents, that Chris-
topher Columbus was a Jew, and not
an Italian, Spaniard nor Corsican, as
has been variously contended in the
controversy which has lasted four
centuries.

Arribas says that Columbus was
born in Povedra, in Northern
Spain, and not in any of the eighteen
Italian towns formerly disputing the
honor of being his birth place.
Eighteen documents, dated 1413 to
1528, established Columbus as a native
of Povedra, and the great discoverer
merely posed as a Genoese from policy.

The union miners of the Paint and
Cabin Creek districts, West Virginia,
who only recently returned to work,
after one of the most desperate
strikes in the history of American
coal mining, during which the dis-
trict was under martial law, yesterday
voted to resume their strike.

It is in connection with this strike
and the declaration of martial law
that a special committee of the senate
is now conducting an investiga-
tion.

Forty-five thousand veterans of the
Civil War, wearers of both the blue
and the gray, have asked the Gettys-
burg commission to provide accom-
modations for the fiftieth anniversary
of the famous battle next month.
These figures were given out yester-
day at Harrisburg, by Dr. Samuel G.
Dixon of the state department of
health, as a final estimate, which
does not include any of the thousands
of visitors expected to journey to the

historic battlefield between July 13

and 18.

On his way to Honolulu from Wash-
ington, where he was a "star" wit-
ness in the "lobby hunt" inquiry, con-
ducted by the senate and still in
progress, Former Governor Carter of
Hawaii accuses President Wilson of
having won his election by "trick
promises" to sugar state representa-
tives.

"Before the campaign of 1912 start-
ed," said Carter, "Representative
Broussard of Louisiana went to Wil-
son at Sagitt and asked him where
he stood on sugar, saying the people
of his state wanted to know before
voting. Wilson replied: 'Tell Louisi-
ana that it need not worry.' This
was the reason why Louisiana went
Democratic."

The effect of free sugar on Hawaii
will be the wiping out of all our in-
dustries and commerce. Hawaii, a
paradise today, will be reduced to a
mere military outpost, which will
stand as a perpetual monument to
Democratic statesmanship and to all
the world as a sign of the exact na-
ture of the advantages of union with
the United States of America."

Carter declined to comment upon
Wilson's refusal to see him.

Three lives were lost, a girl's and
two men's when two motorcycles col-
lided while traveling seventy-five miles
an hour this afternoon on the foot-
hill boulevard, in Oakland, Cal.

The victims are Hatalai Sutiliff,
nineteen years old, telephone girl;
Jos. Souza, twenty-one years old,
teamster, and Westley Heffelt, twenty
years old, janitor.

The Terra Nova, Captain Scott's
Antarctic ship, has arrived at Cardiff,
Lytelton, New Zealand, by way of the
Strait of Magellan. Thousands lined
the quays and met the surviving mem-
bers of the expedition.

An army of eleven hundred insur-
gents is advancing upon the Texas bor-
der against Juarez according to ad-
vices from Fort Bliss, Texas.

In the files of the state department
is a protest by Japan against the ac-
quisition of Hawaii by the United
States. It was made at the time the
legislation was pending and has never
been withdrawn. Japan did not protest
the acquisition of the Philippines by
this country, but she did not want
Hawaii to become United States ter-
ritory.

Representations of this government,
in response to the conditions of Ja-
pan's rejoinder in the California ne-
gotiations, probably will be submitted
to Viscount Chinda, the Japanese am-
bassador, Tuesday.

The note will be considered at the
cabinet meeting Tuesday morning and
will be presented to Ambassador Chin-
da in the afternoon.

John Bassett Moore, counselor for
the department of state, has completed
the general draft of the note, set-
ting forth the legal argument support-
ing the Webb-Bloodgood Bill, his in-
structions having been to uphold the
"State rights" principle, which is re-
cognized by both the president and the
secretary of state.

The note is virtually a brief and
combats the technicalities raised by
the foreign office at Tokio.

The predicted shakeup in the cabi-
net of President Huerta has occurred.
General Mondragon has resigned as
minister of war and has been succeed-
ed by General Aureliano Blanquet,
former military commander of the
Federal District. Several other
changes were made.

Floods cost the lives of three hun-
dred people on Saturday in the Pal-
tana district, on the peninsula of Ka-
thiawar, India, to the north of Bom-
bay, on the Arabian Sea. The inunda-
tions were caused by heavy rains.

The American yacht Columbia, seized
by the Japanese authorities for un-
lawful entry into the closed port of
Nagahama, has been released and the
incident which threatened to cause in-
ternational complications is closed.

The subcommittee of the senate fi-
nance committee considering the met-
als schedule, Saturday voted to put pig
iron on the free list, although doing so
will mean a loss of revenue estimated
to amount to twenty-seven million dol-
lars annually. The pig iron rate under
the existing tariff is \$2.50 a ton, which
the Underwood Bill, as it passed the
house, cut to eight per cent.

Mrs. Emmeline Pankhurst was ar-
rested again Saturday and taken to
the Holloway prison. She had been
released for the second time on a li-
cense on May 30, owing to ill health.
Mrs. Pankhurst was on her way to at-
tend the funeral of Miss Emily Davison.

A real sensation was sprung at the
"insidious lobby" investigation in
Washington Saturday, when a letter
purporting to show that President
Wilson, last September, promised the
beet sugar interests, that, if he were
elected, he would not molest the sugar
industry, was read to the senate sugar
committee. The letter was signed by
W. H. Wallace and addressed to W. R.
Hathaway, secretary of the Michigan
Sugar Company. Wallace is general
manager of the same company. The
letter was admitted as evidence dur-
ing the examination of Hathaway. It
said that President Wilson had made
this promise to Wallace on September
12, and that on September 9, at Saginaw,
Michigan, he made a similar promise
to Vice-President Douglas of the
same company.

Rear Admiral Hugo Osterhaus, rank-
ing officer of the navy, next to Ad-
miral Dewey, closed his active career
Saturday, when he reached the age of
retirement. His retirement brings up
again the question of the promotion
of Captain Templeton M. Potts and
Commander Philip Andrews, whom
Secretary Daniels recently refused to
advance to the grade of rear admiral
on the ground of insufficient service.
